We also collect information indirectly from you or your authorized agent. For example, through information we collect from our members in the course of providing services to them.

b. *From Our Website and Applications That You Access on Your Mobile Device*

We collect certain information from your activity on our website activity on our website UNIFYfcu.com and your use of applications on your mobile device. We may collect your IP address, device and advertising identifiers, browser type, operating system, Internet service provider ("ISP"), pages that you visit before and after visiting our website, the date and time of your visit, information about the links you click and pages you view on our website, and other standard server log information. We may also collect your mobile device's GPS signal, or other information about nearby Wi-Fi access points and cell towers.

i. **The Role of Cookies and Other Online Tracking Technologies**

We, or our service providers, and other companies we work with may deploy and use cookies, web beacons, local shared objects and other tracking technologies for various purposes, such as fraud prevention and to promote our products and services to you. Some of these tracking tools may detect characteristics or settings of the specific device you use to access our online services.

"Cookies" are small amounts of data a website can send to a visitor's web browser. They are often stored on the device you are using to help track your areas of interest. Cookies may also enable us or our service providers and other companies we work with to relate your use of our online services over time to customize

your experience. Most web browsers allow you to adjust your browser settings to decline or delete cookies, but doing so may degrade your experience with our online services.

Clear GIFs, pixel tags or web beacons - which are typically one-pixel, transparent images located on a webpage or in an email or other message - or similar technologies may be used on our sites and in some of our digital communications (such as email or other marketing messages). They may also be used when you are served advertisements, or you otherwise interact with advertisements outside of our online services. These are principally used to help recognize users, assess traffic patterns and measure site or campaign engagement.

“First party” cookies are stored by the domain (website) you are visiting directly. They allow the website’s owner to collect analytics data, remember language settings, and perform useful functions that help provide a good experience. “Third-party” cookies are created by domains other than the one you are visiting directly, hence the name third-party. They may be used for cross-site tracking, retargeting and ad-serving. We also believe that cookies fall into the following general categories:

- **Essential Cookies:** These cookies are technically necessary to provide website functionality. They are a website’s basic form of memory, used to store the preferences selected by a user on a given site. As the name implies, they are essential to a website’s functionality and cannot be disabled by users. For example, an essential cookie may be used to prevent users from having to log in each time they visit a new page in the same session.
- **Performance and Function Cookies:** These cookies are used to enhance the performance and functionality of a website, but are not essential to its use. However, without these cookies, certain functions (like videos) may become unavailable.
- **Analytics and Customization Cookies:** Analytics and customization cookies track user activity, so that website owners can better understand how their site is being accessed and used.
- **Advertising Cookies:** Advertising cookies are used to customize a user’s ad experience on a website. Using the data collected from these cookies, websites can prevent the same ad from appearing again and again, remember user ad preferences, and tailor which ads appear based on a user’s online activities.

ii. *Online Advertising & Online Behavioral Advertising*

You will see advertisements when you use many of our online services. These advertisements may be for our own products or services (including pre-screened offers of credit) or for products and services offered by third parties. Which advertisements you see is often determined using the information we or our affiliates, service providers and other companies that we work with have about you, including information about your relationships with us (e.g., types of accounts held, transactional information, location of banking activity). To that end, where permitted by applicable law, we may share with others the information we collect from and about you.

Online behavioral advertising (also known as “OBA” or “interest-based advertising”) refers to the practice of collecting information from a computer or device regarding a visitor’s web-browsing activities across non-affiliated websites over time in order to deliver advertisements that may be of interest to that visitor based on their browsing history. **We do not engage in OBA.**

Our advertising service providers may deliver our advertisements to you on non-affiliated websites. Such service providers control the manner in which the advertisements are delivered to you on such non-affiliated websites. You should generally be able to opt-out of receiving such advertisements from the service

provider responsible for delivering the advertisement. Please contact us if you have any difficulty doing so.

c. Third-party service providers in connection with our services or our business purposes

We collect information from third-party service providers that interact with us in connection with the services we perform or for our operational purposes. For example, a credit report we obtain from a credit bureau to evaluate a loan application. Another example is a third-party service provider that provides us information to help us detect security incidents and fraudulent activity.

d. Information we collect from third-parties for a commercial purpose

We collect information from third-parties for our commercial purposes. We partner with a limited number of third-party analytics and advertising firms. These third parties may use cookies or code processed by your browser to collect public information about your visits to our and other websites in order to provide customized experiences, advertisements or services. These parties may also collect information directly from you by contacting you telephonically, via email or through other communication channels. We do not disclose any information about you to such third-parties except as permitted by applicable laws and regulations, and we require such third-parties to follow applicable laws and regulations when they collect information from you to transfer such information to us.

III. HOW WE USE YOUR PERSONAL INFORMATION

We may use or disclose personal information we collect for one or more of the following operational or other notified purpose (“business purpose”):

Once we receive and verify your request, we will delete (and direct our service providers to delete) your personal information from our records, unless an exception applies. We may deny your deletion request if retaining the information is necessary for us or our service providers to:

6. Enable solely internal uses that are reasonably aligned with consumer expectations based on your relationship with us.
7. Comply with a legal obligation.
8. Make other internal and lawful uses of that information that are compatible with the context in which you provided it.

We cannot respond to your request or provide you with personal information if we cannot verify your identity or authority to make the request and confirm the personal information relates to you. Making a verifiable consumer request does not require you to create an account with us. We will only use personal information provided in a verifiable consumer request to verify the requestor's identity or authority to make the request.

When we receive a verifiable request from your "authorized agent," which is any person or legal entity registered with the California Secretary of State that you have authorized to act on your behalf, we will require:

2. Require your authorized agent to furnish a copy of a power of attorney pursuant to California Probate Code sections 4000 to 4465 and require the authorized agent to verify its own identity to us.

We will deny a request from an agent that does not submit proof that they have been authorized by you to act on your behalf and cannot verify their own identity to us.

e. Response Timing and Format

We endeavor to respond to a verifiable consumer request within 45 days of its receipt. If we require more time (up to 90 days), we will inform you of the reason and extension period in writing.

Any disclosures we provide will only cover the 12-month period preceding the verifiable consumer request's receipt. The response we provide will also explain the reasons we cannot comply with a request, if applicable. For data portability requests, we will select a format to provide your personal information that is readily useable and should allow you to transmit the information from one entity to another entity without hindrance.

We do not charge a fee to process or respond to your verifiable consumer request.

We will not discriminate against you for exercising any of your rights in this Privacy Policy and under applicable laws. Unless permitted by law, we will not:
